Workshop Goal:

The purpose of this workshop is to equip aviation security personnel with the knowledge and skills necessary to develop credible insider threat scenarios and create effective mitigation action plans.

By the end of the workshop, participants will be able to identify potential insider threats, assess associated risks using the ICAO Risk Assessment Methodology, and develop practical mitigation strategies.

Workshop Objectives:

After successfully completing this workshop, the trainees will be able to:

- Understand the concept of insider threats and apply general principles of risk management.
- Define and understand risk assessment as it applies to insider-based risks in aviation security.
- Understand the various types of Insiders and develop insider threat scenarios.
- Understand relevant Annex 17 standards.
- Understand ICAO risk assessment process.
- Practice assessing insider-based risks.
- Apply risk management principles to insider-based vulnerabilities in aviation security operations.

Workshop Content:

Module 1: The Management of Insider Risk

Module 2: The Insider

Module 3: Icao Risk Assessment Methodology

Module 4: Insider Threat Scenarios

Module 5: The Assessment

Module 6: Undertaking The Assessment

Module 7: Risk Mitigation

Module 8: Practical Aspects

Module 9: Monitor and Review

Target Population:

This workshop is recommended for aviation security personnel at the basic level with the potential for promotion to the supervisory level, and existing personnel at that level employed by the authority, airline, airport or any other organization primarily responsible for the application of aviation security measures.

Entry Requirements:

Trainees must meet the following criteria:

- Experience in aviation security.
- Good knowledge of international and national security regulations.
- Have written and oral command of English language.
