NATIONAL CIVIL AVIATION SECURITY PROGRAMME WORKSHOP (NCAP)

Certified ✔ Accredited by: ICAO Duration:5 days Language of Instruction:

Registration Contact: training@afsactunisie.com +216 98 333 330 +216 20 199 950

Workshop Objectives:

This interactive workshop is designed to:

- Communicate the objectives of the NCASP by drafting an Objective Statement;
- Identify roles and allocate various responsibilities of all aviation security stakeholders as described in the NCASP.
- Describe the various supporting legislation required for an effective NCASP and determine whether said legislation is based on international or national requirements.
- Describe the various requirements and methods a State shall implement to ensure an effective communications system both at the international and national levels.
- Describe the security requirements for transfer cargo and high-risk cargo and common baseline measures for cargo carried on passenger and all-cargo aircraft.
- List security measures to be addressed regarding protection of airports, aircraft and navigational aids.
- List security measures to be addressed regarding the control of persons and items, including persons other than passengers and vehicles.
- List various training requirements and options for meeting those requirements;
- Determine the make-up of the NCASP development team.
- Develop and draft a National Civil Aviation Security Programme.

Workshop Outline:

- Regulatory Requirements;
- Acts of Unlawful Interference and Countermeasures
- Organizational Roles and Responsibilities
- Supervisory missions of the competent authority
- Development of procedures and guidelines

- Coordination and Communication
- Development of the quality assurance Programme
- Subcontractor supervision procedures
- Security Restricted Areas and Access Controls
- Training, Effectiveness, and Catering
- Development Team

Target Population:

It is recommended that nominees be at the senior or middle management level within the State's appropriate authority who are responsible for the control, drafting, review, updating and/or implementation of NCASP.

Entry Requirements:

To follow this Workshop, it is strongly advised that the candidate has acquired the regulatory knowledge contained in the basic training.
